Hey Mark,

Please have a look at the report compiled and let me know if it makes sense and the layout is alright. I know that PDF format is not ideal but the word doc is 24MB....

Happy to amend if required as there is bound to be some errors.

I still have to add swipe card data, but I couldn't understand how Tim presented it in the files that he gave me (if I can't understand it they won't be able to use it during interview), so I will sit with him first thing tomorrow to work out the best way to present this. I think the evidence presented paints a fair picture, so they will either disregard the evidence and keep him or get rid of him..

I also will add to the email (not investigation report) that it appears that the female is currently on-site.

Regards,
