Co

Josh has tried to source a lock similar to the one in the photograph we were forwarded and his suppliers have not seen one like it before.

Josh has suggested we could install something as in the one below and I have attached a quote to this email.

I believe the best thing we can do is just get myself and Josh there asap to look at what is there and make an informed decision on site or wait until you and the client return.

Your thoughts?

Regards

Confide

Hi **Confid**

Attached is a picture of the type of lock I would recommend. It is a standalone system, 2 years battery life, will give a warning when battery is going flat. One way entry which means pin number to get in and free handle to exit.

I would just change the handle to a nicer straight forward handle.

Quote to come
